Subject : Application for Software Engineer Position
Date : 16 April 2026

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer position at Nvidia, as advertised on your Careers page. I am currently pursuing my B.Tech in Computer Science and Engineering and have a strong passion for programming and problem solving. I am excited about the opportunity to contribute to Nvidia's mission of delivering innovative and scalable solutions.

I am currently studying in my 4th year of B.Tech CSE at Graphic Era Hill University. Throughout my academic journey, I have built a solid foundation in Data Structures, Algorithms, Object-Oriented Programming, SQL, and core subjects such as Operating Systems and Computer Networks. I enjoy developing efficient code and solving real-world problems.

I have worked on several academic projects, including a Campus Marketplace for BYU sell and rent, and a Campus Navigation to navigate in building. These experiences have strengthened my technical skills and taught me the importance of clean coding, teamwork, and continuous learning.

What excites me most about Nvidia is its culture of innovation and its impact on cutting-edge technologies. I am eager to learn from industry experts and grow as a professional while contributing to meaningful projects.

I have attached my resume for your consideration. I would greatly appreciate the opportunity to discuss how I can contribute to your team.

Thank you for your time and consideration.

Sincerely,
Sahil Singh
B.Tech CSE
Graphic Era Hill University
